Part	Amount	Notes
Polyethylene Bar, 3/4" x, 1-1/4"	3.33 Items	18"

Time to assemble	0.90 hr
Number workers	1
Man hours	0.9 hr

Cockpit toe rail

Notes

Times Tom. Took 1.8 hr to make up two.

18" long. There is picture with measurements in the photo lot of Dart #4

Look at the fordeck toerail drawing on the PC for the ends. Also Tom made an end routing jig for them.

Don't forget the bull-nose. Ask Tom the radious. See #4 photos for all of this as well.

10/21/2015 - Tom says he just breaks the edges. Like about a 1/16" or so.
